<p><b>Second Prize</b></p>		<p><b>Topic: Taiwan's line up culture in International College</b></p> <p>After I came to International College, I heard many foreigners saying that they think our line up culture is special and interesting. In foreigners' view, Taiwanese line up for everything. However, one day when we have to hand in our homework and sign in for the attendance, everyone wants to go first. Therefore, everyone line up in the front of the classroom to wait for the teacher before the class start. It's interesting that students from different countries line up to hand in homework for a foreign professor.</p> <p>Photo Taken by Chuang, Kai-Chi (Wendy)</p>
